

COLD WAVE STRIKES
THE EASTERN STATES.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Feb. 2.—The Weather Bureau tonight reports that a cold wave extends over the eastern portion of the United States, the lake region and various portions of the West, with extremely low temperatures in many places. The cold wave came from the extreme Northwest and moved over the Mississippi and Ohio valleys, the lake region and over the Atlantic States generally. The mercury has fallen considerably as far South as Savannah, where the record so far is 42 degs., with a possibility of freezing before morning. In Northern New York unofficial reports show as low as 20 degs. below zero at various points.

The Weather Bureau's reports show that the temperature today was 50 degs. below at Rockville, Ont., 24 degs. below at Sault Ste. Marie, Mich., 10 below at Duluth, Des Moines and Keokuk and 10 degs. below at Moorhead, Minn.

The cold wave will not be of long duration, as indications from all sections give prospects of more moderate weather very soon.

USE RED PEPPER.

PARIS, Feb. 2.—As a result of today's rioting, though the inventory was taken in but one church, that of St. Pierre Groscaillon, over fifty persons were seriously injured and a further considerable number slightly hurt. The latter included a number of police and firemen who were almost blinded with cayenne pepper.

The storming of the building was greatly protracted owing to the use by the "defenders" of red pepper.

PARIS, Feb. 2.—[Exclusive Dispatch.] Disturbances at St. Clotilde and other churches Thursday were repeated today in more violent fashion. Lepine, Prefect of Police, gave marshalsmen a Clotilde a hint of his intentions Thursday. Today he applied the cold water cure to those of St. Pierre du Groscaillon.

Continuing the operations prescribed by the separation law, military officials endeavored to make an inventory of the church property of that parish. Violent resistance was again offered, but the firemen won the day, and in every sense of the word, they ended the order of the manifestants.

It had been intimated that all the efforts of the Catholics would be concentrated on St. Pierre du Groscaillon. Police measures were taken in consequence, and the approaches to the church were held by police. Municipal Guards, both mounted and on foot. Detachments of firemen with their appliances were kept in readiness. The struggle which followed was violent.

Several policemen were carried out, suffering with blood poisoning and the other officials entered the church. The night was remarkable. The floor, ankle deep in water, was strewn with broken chairs and other furniture. Water continued to stream in, and women, with open umbrellas, shrieked continually, while the parish priest, standing in the choir with the clergy, read a violent protest against "the iniquity of the law." Shouts of defiance greeted Prefect Lepine, but the appearance on the scene of a strong force of Municipal Guards proved that all was over.

CHAIRS AS SHIELDS.
After repeated efforts, the police and firemen succeeded only in entering the church by employing chairs as shields. The first two who got through the door were knocked unconscious. Those who followed, although they were thoroughly exhausted, refrained from violent retaliation.

The authorities adopted rigorous measures to suppress the disturbances and the threatened counter-demonstration by Catholics against the militant Catholics who gathered at the church, and in consequence the Rue St. Denis, on which the church is situated, saw the appearance of a street in a few minutes.

All the shops in the neighborhood of the edifice were closed, cordons of armed municipal guards on foot were stationed at intervals along the street and a squadron of mounted Municipal Guards with drawn swords patrolled the thoroughfare and kept the crowd moving.

When Prefect Lepine arrived the bells were tolled and the people inside the church, numbering about three thousand, began singing psalms, while outside the noisy element shouted revolutionary songs.

Lepine twice summoned the congregation to open the inside gate, which the people refused to do, and then firemen were ordered to force an entrance, using their hatchets. As they mounted ladders in order to break in the windows of the Chapel for the Virgin, an annex of the church, revolver shots rang out and the firemen retired.

thermometer took a sudden drop of 22 degs. and tonight the temperature was far below that of January 10, which before today, registered the lowest of the season of 1905-06.

Indications are that the present cold wave, which has swept the country in the Northwest, will not last long. According to the tradition that if the "groundhog" sees his shadow, there will be six weeks more of winter weather, those who look for balmy days will be disappointed.

There was no sign of vernal air in the gale which swept over the city for a great part of the day at forty-eight miles per hour, and in a temperature which at midnight is 7 degs. above zero.

The President Denies That He Has Offered \$100 a Set for New-Born Babies.

HARTFORD CITY (Ind.) Feb. 2.—[Exclusive Dispatch.] The President, through Secretary Loh, has informed James F. Hunt of this city, who is father of triplets, that he is not paying \$100 premiums on triplets. The letter is curt and to the point, as follows:

"WHITE HOUSE, Washington, Jan. 30, 1906.
"My Dear Sir:—Your letter of 29th inst. has been received, and its contents noted. In reply, I would say that you have been misinformed, as no offer of the kind you mention has been made."

Hunt says that he wrote the letter, under impression that the President gave a present of \$100 to the parents of every set of triplets.

Five States' Representatives Probe New York Life.

Insurance Company Hopes for Favorable Report.

Important Policy Adopted by National Convention.

NEW YORK, Feb. 2.—[Exclusive Dispatch.] Examiners and accountants representing the insurance departments of the States of Wisconsin, Minnesota, Kentucky, Tennessee and Nebraska, who four months ago began an investigation into the affairs of the New York Life Insurance Company, have just completed their task. They are expected to report at an early day to their respective state departments, and among the officers of the New York Life the belief prevails that their report will be so favorable to the company that it will go far to offset possible adverse criticisms in the coming report of the Fowler "housecleaning" committee of the Board of Directors, which is to be made public next Thursday.

To defray the expenses of the joint examination by the States named, the New York Life has had to pay \$10,000. Each of the examiners has drawn from the company a compensation at the rate of \$5 a day for incidental expenses. Two of their number, acting as a subcommittee, have also enjoyed the company's expense, ostensibly for the purpose of investigating the New York Life's financial condition.

New York Life officers may not be altogether pleased with the character of the reports to be made to the State Departments. From an authority usually reliable, it was learned today, that while the examiners were at first disposed to make a set of comprehensive reports, they have now largely in the nature of a "whitewash," Commissioners Hunt and Pierce of the State of Wisconsin, and Nebraska, respectively, objected. As a consequence, acid was injected into the report in considerable quantities.

It is believed the report will arraign the acts of George W. Perkins with special severity. Perkins was called for the retirement of several members of the present Board of Directors and the removal of the company's charter canceled in some of the States concerned.

SALT LAKE (Utah) Feb. 2.—Following an investigation of the affairs of the Continental Life Insurance Company by the office of the County Attorney of Salt Lake county, a complaint was sworn out and a warrant issued for the arrest of the president of the company, William Tyree, who is expected to leave tomorrow for San Francisco. The complaint alleged that President Tyree offered a false instrument to the soldiers for record, in that he had received a check for \$100,000 from the company in bank and in safety deposit vaults as being \$40,000, when as it is charged, the amount is much less than that, perhaps not more than \$60,000; that he falsely certified that the total expenses of the company for 1904 were \$100,000, when the actual total expenses were largely in excess of that amount.

The Continental Life Insurance Company has written about \$6,000,000 of insurance in the States of Utah, Montana, Idaho, Washington and California.

Tyree is also at the head of the Western Securities Company, a California corporation. Under the laws of Utah the officers with which he is charged is a felony.

RAILROAD RATE BILL IN LINE.

Mr. Thomas Says Democrats' Position Coincides.

Burton of Ohio Remarks Corporation Enormity.

Sickening Dishonesty Discovered in High Places.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Feb. 2.—The Senate Committee on Interstate Commerce today reached an agreement to vote upon the various railroad rate bills February 16. There are three measures being pressed for consideration: The Dilliver-Clapp bill, the Elkins bill and the Foraker bill. The measure which receives the largest number of votes will be reported to the Senate as the majority measure. It is likely that both the other bills will be given to the Senate in minority reports.

It was agreed further that the committee shall meet February 9, and from then on every day, until some bill is determined upon. The Hepburn House Bill is expected to be before the Senate by that time, and that will furnish the basis for discussions in committee. The authors of the Senate bill will use every effort to amend the House bill so as to include many of the provisions of their measure. This is true particularly of Senators Elkins and Foraker, the Dilliver-Clapp bill being drawn on lines similar to the measure pending in the House.

It is thought likely that the Hepburn bill, with amendments to be made in the committee, will receive a majority report. This will not prevent the other bills from being reported by the minority.

WASHINGTON, Feb. 2.—Before proceeding to consideration of the Rate Bill today, the House passed a bill extending the public land laws to a tract of land ten miles square in Wyoming ceded to the government in 1897 by the Shoshone and Arapahoe Indians.

Mr. Thomas of North Carolina opened the discussion on the rate bill, making an argument in its favor. He said the bill was in line with the Democratic position; the President's position; the views of the Interstate Commerce Commission; and the views of all over the country, including his own State, and the outgrowth of public sentiment. He said the bill was sustained by the truckers of his district last spring. He insisted that refrigerator cars should be placed under the control of the commission.

Mr. Golden of New York gave his reasons for supporting the bill. It was the best of its kind ever presented. Its benefits were greater than its defects.

ENORMOUS CORPORATIONS.

In beginning an hour's speech in favor of the bill, Mr. Burton of Ohio dwelt upon the enormity of the corporations in this country. He could remember when this was not the case, when small business was the rule. Now the mechanism of steam has transformed the world. The industry completely, so that the employee is a cog in a tremendous mechanism.

The greatest danger to the country, he said, was the enormous corporations. Regulation was demanded by the conditions. The two special features of the bill were, first, the fixing of a rate, and second, the speedy adjudication of a rate in the courts.

With 150,000 rate schedules related, one to either, he was not sure what the result would be or what the court of last resort would decide. However, he did not believe that the revolution ordered by the commission, nor have as the result of them. The difficulties of the policy, and secondly, such as the long and short haul and the basic-point questions, Mr. Burton believed, should be fixed by Congress. It was the failure to exercise such responsibilities that resulted in the complaints that the House was losing its voice.

As to rebates, he said, human ingenuity had hardly, if ever, been exercised to evade the law, as had been the case since the passage of the Elkins Act. Discrimination between individuals, he maintained, could not be stopped. The discrimination between places was a difficult problem, in which many elements of rate and secondly, such as the long and short haul and the basic-point questions, Mr. Burton believed, should be fixed by Congress. It was the failure to exercise such responsibilities that resulted in the complaints that the House was losing its voice.

"If we seek for the real evil," said Mr. Burton, "it is not the rebates to the middle of the people," and he added: "We have had sickening examples of dishonesty in high places."

SUCCESSFUL DISHONESTY.

Success, he said, and the admiration for great wealth breaks down the line between honesty and dishonesty. Legislation could do nothing to correct the evils of dishonesty. Publicity was one step to cause condoning great offenses was another; to provide equality of opportunity, the third. To make it plain that this corporation was so great that it was above the law, he said, was a step in the right direction, and this should not be confined to railroads.

Mr. Burton concluded with the statement that the present bill was a step in the right direction, and that he hoped that year by year others might be taken.

Throughout Mr. Burton commanded the close attention of members, and received applause and congratulations on his conclusion.

Mr. Burke of South Dakota followed, having been yielded an hour. He fa-

vored the bill, and reviewed the legislative status of rate-regulating laws. He emphasized the necessity of defeating all amendments that may be proposed to the bill, and have it passed by the House by the largest vote possible. When Mr. Burke concluded, Mr. McCall took the floor in favor of the bill.

Mr. McCall made the point that the bill delegated legislative as well as judicial power to the commission.

You might as well delegate tariff legislation to a commission," he declared.

McCall presented an extensive argument in opposition to government rate making. He said the pending bill ought to deal particularly with rebates. This was "what public opinion demanded," until diverted to an utterly irrational and haphazard remedy.

The present effort, Mr. McCall called "political rate making," and said he preferred the liberty of the courts to fastidious regulations of commission. He contended the original act creating the Interstate Commerce Commission did not grant the rate-making power, and was not intended to. The pending bill, he insisted, gave power to set aside great groups of rebates. It was a rate-making scheme of a most sweeping character.

"At the rate we are now going," Mr. McCall concluded, "it will not be long before we regulate everything and everybody from Washington."

Mr. Russell of Texas, who followed, stated that the President stood with the Democratic party on the question. Since 1896 that party had advocated the very legislation now pending, while the President's first utterance on the subject was in 1904. However, the President was a fighter.

"Would not the President have charged up San Juan Hill, just as many of us have?" [Laughter.]

The House, at 5:15 o'clock, adjourned until tomorrow at 11 o'clock.

GOVERNMENT PUBLISHES PHILIPPINE COMMISSION REPORT.

Peace and Order Have Prevailed Throughout Provinces of Archipelago. Excepting Cavite, Batangas and Samar—Little Brown Boys Take Kindly to the American Plow.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 2.—The annual report of the Philippine Commission for 1904-5, together with the separate reports to the commission of the Governor-General of the islands and of the heads of the four executive departments, has just been made public by the War Department.

The Governor-General in his report to the Philippine Commission states: "With the exception of the provinces of Cavite, Batangas and Samar, peace and order have generally prevailed throughout the islands. Except in these provinces the instances of lawlessness have been few and insignificant. Cattle stealing, which was common two or three years since, has almost entirely ceased, and this, together with the sense of security which has come to the people from a vigorous pursuit of these evil doers, has principally contributed to the increased cultivation."

"The provinces of Cavite, Batangas and Samar have been much afflicted during the year by organized lawless bands, which for a considerable time past have terrorized and plundered the people of the islands. The effect of these depredations resulted in the abandonment of the farming class, where to some extent the police protection was afforded them."

In most of the provinces of the island and of Luzon practically the last vestige of armed resistance to constituted authority has been wiped out, and in others, where the resistance has been sustained by the truckers of his district last spring. He insisted that refrigerator cars should be placed under the control of the commission.

Mr. Golden of New York gave his reasons for supporting the bill. It was the best of its kind ever presented. Its benefits were greater than its defects.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 2.—There was for a moment today a prospect that the Statehood Bill would receive its first formal reading in that body, as ways the initiative step in the consideration of any measure reported from committee. The Senate took up the calendar immediately after disposing of the routine business, and as the Statehood Bill occupied the first place, the secretary had begun to read it before any of the opponents of the bill realized the situation. He had covered but a few pages when Mr. Teller put a stop to the proceedings for the time.

"How was this bill reported?" he asked.

When informed, he suggested that the bill should go over.

"The Senator implicitly does not object to the reading of the bill," remarked Mr. Beveridge, in charge of the measure.

"Certainly do," replied the Colorado Senator.

Accordingly, the further present consideration of the bill was stopped.

Mr. McCumber made a brief statement regarding the substitute for the Pure Food Bill presented yesterday by Mr. Beveridge, which he declared would do no good.

When all the pension bills (about 150 in number) had been disposed of, the general calendar was taken up, and a bill was passed establishing quarters for the lightkeeper at Cape Mendocino, Cal.

The Shipping Bill was then taken up and to meet the objection made to it yesterday by Mr. Spooner, Mr. Gallinger moved to strike out the provision prohibiting vessels from receiving subsidies for more than ten years, and the motion prevailed.

CROWDING THE OCEANIC.

Mr. Patterson criticized the provision for a subsidy to the Oceanic Steamship Company, saying that the Pacific Ocean. He said that the company was now amply repaid upon contracts for the United States mails, and expressed the opinion that it was already receiving all that it was entitled to from the public treasury. The proposed subsidy of \$250,000 a year practically doubled the award, he said.

Mr. Gallinger said if Congress did not come promptly to the support of the Oceanic Company, it would be forced by the company to seek aid from other sources. also that suggestions of a compromise of any sort on rate regulation which do not embody the substance of the President's message on the subject have not appealed to the President. It can also be said that he doubtless would refuse to accept a compromise which would affect any essential feature of the proposed legislation.

What is known as the Hepburn bill, now under discussion by the House, embodies substantially the President's views as set forth in his annual message. In the early days of the present session he thought the measure proposed by the Interstate Commerce Commission was most practicable offered, but after mature consideration, it seemed to him that the Hepburn bill was the better.

Members of the Senate committee on Interstate Commerce have assured the President that either the Hepburn bill or a measure embodying its essential features will be reported to the Senate. The report of the Senate committee will not be unanimous, but it will represent a meeting of the views of its members. The report will be supported, it is thought, by Senators Culom, Dilliver and Clapp, and possibly by other Republicans, and by the Democratic members of the committee.

It can be stated that while the President desires that the rate legislation shall be established, he is firm in his attitude that the railroads, as well as the shippers, shall be dealt with entirely justly. He wants nothing in the law that would affect unfairly the rights or the property of the railroads. He is confident that legislation to be submitted to the Senate will be fair alike to the railroads and to the people. He is not trying to impose a measure upon the country, and, of course, will preserve an open mind as to proposed amendments which do not affect the material and substantial features of the bill.

Senators Dilliver and Clapp had another talk with the President, today, on the rate-regulation question, following a meeting of the Senate committee at which the question was under consideration.

PHILIPPINES AND STATEHOOD.

The President is interested deeply in both the Philippine tariff and the Statehood measure. Concessions as to either one of them have now, it is stated, been given serious consideration. At the White House, it is understood that an effort is to be made in the Senate first to eliminate Arizona and New Mexico from the list of territories, and then to take up the Statehood measure.

It is early yet to say with any degree of accuracy what the result of the latter proposition may be.

Senator Beveridge of Indiana, chairman of the Committee on Territories, has assured the President that, in his judgment, the measure as it stands ultimately will be enacted into law.

That would be the President's desire, but it is not likely that he would sign the bill, even if it were sent to him without the referendum provision included.

A vigorous fight is being made on the question of the referendum now. It is not a question of there being merely a majority and minority report on the measure, for the Senate is divided into several groups on the measure, each of which represents a different view. Whether these different views can be reconciled into one measure practically as it stands, or into law or not, remains yet to be seen.

MIZNER GOES TO HIS WIFE.

Former Mrs. Yerkes Admits She is Married.

Did Not Wish to Tell Until Certificate Was Filed.

She Denies Having Given Him a Million.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Feb. 2.—[Exclusive Dispatch.] Rev. Dr. Andrew Gillies today filed in the Bureau of Vital Statistics at the Department of Health the certificate of Mrs. Yerkes' marriage. The document certifies that "Wilson Mizner and Mary Adelaide Yerkes were united in holy matrimony, according to the laws of the State of New York, on the 30th day of January, in the year of Our Lord one thousand nine hundred and six, at New York."

The paper is signed by E. K. Waller, secretary to Mrs. Yerkes, now Mrs. Mizner, and Joseph L. Eastland, both of whom witnessed the ceremony.

NEW YORK, Feb. 2.—When a hansom cab, loaded with suit cases and carrying a tall, dark young man, drove up to the Yerkes mansion, in Fifth avenue, this afternoon, the first step toward the climax in the comedy of "Wife or Widow" had been taken. The curtain fell when Wilson Mizner, the newspaper man, stepped into the house of the mistress of the house, who after three days of persistent denial that she was other than Mrs. Yerkes, admitted with a smile that her proper title is Mrs. Wilson Mizner.

When seen by a reporter, Mrs. Mizner explained that she had denied the report of the marriage on account of personal reasons. The announcement was not to have been made until the certificate of marriage had been filed, which was not to have been done until the limit of the ten days allowed by law had been reached.

According to gossip, the bride changed her mind because Mizner fretted under the clouds of doubt which her denial of the marriage had occasioned. When he arose yesterday, it was intimated to him that the notoriety which his affairs were attracting caused annoyance to the other guests of the Hotel Astor. In reply he said word to the management that it was his intention to change his quarters during the day. He drove at once to No. 864 Fifth avenue, and said that his former Mrs. Yerkes would have a statement to make in fifteen minutes.

ROMEO, WITH VARIATIONS. He reappeared punctually, and asked the reporters to go to "his wife's apartments, as she had not been feeling very well." Mizner appeared standing on a balcony above the hall, where his visitors were gathered, and greeted them with cordiality. It was like a scene in a play, with Romeo supported by a Roman mob, while he looked upon Juliet.

With her face wreathed in smiles, Mrs. Mizner said: "Yes, it is quite true that I was married to Mr. Mizner. I made up my mind to this course recently, and when I decided to take the step I saw no reason why the general public should be taken into my confidence. Mr. Mizner and I have many tastes in common. Neither of us cares for society, and both of us are fond of reading and travel. I think we shall be very happy."

DENIES THE MILLION. "As to the report that I placed \$1,000,000 on my husband, it is absolutely false. It has made Mr. Mizner indignant, and I resent it, too. I am convinced he was not actuated by any such motives as some have insinuated. He was extremely kind to me through all my troubles."

When asked as to the report that she was not in complete possession of all her faculties when the ceremony was performed, Mrs. Mizner with some heat responded: "That is absolutely false. I married Mr. Mizner of my own free will."

ON THE CRATER. Mizner was asked about the reports that Edith Crater was about to sue him for breach of promise. "That," he said, "is digging up an old scandal. I know Miss Crater. She is an estimable girl. It is cruelty to set any kind of report in circulation about her. I don't care for myself, and I don't need the money; but if the man I suspect of digging this thing up and making it public is guilty, I intend to sue him for \$25,000."

SAW HIS BRIDE. Mizner returned to the Hotel Astor at midnight, last night, after several hours' absence, and then said genially to the reporters: "I have just paid a visit to Mrs. Mizner at her home, 864 Fifth avenue. We had a long talk and canvassed the situation thoroughly. I tried to persuade her to see newspaper men, at least once, and settle the whole business. She would not do it tonight, but she may give out a statement tomorrow. I expect her to, anyway."

Now, as a matter of fact, the reason why Mrs. Yerkes declined being married to me was that the news came out too soon to suit her, though it was not through any fault of my own. She did not expect for a good while, and when she woke up Wednesday morning and found that the newspapers were full of it, she was pretty angry. She was so angry that she denied the whole thing, and after she once put herself on record, so to speak, she did not want to face about. You see, Mrs. Yerkes rather believes that it is not anybody's business but her own what she does, and perhaps she is inclined to resent inquiries.

"SALT LAKE ROUTE"

Edith Crater is said to be preparing papers charging Mizner with breach of promise. Miss Crater is one of two girls whose family in early days occupied an enviable social position in Denver. Allene and Edith went on the stage. Allene made a hit in the Henderson extravaganza in Chicago, and Edith, more subdued in her tastes, married Harry Samma of the Westall & Samma Dramatic Company. Years ago Samma dropped out of sight.

"We don't wish to say anything concerning the case of Mizner and my sister," said Clarence Crater, brother of the young woman, at his Park Hill home today. "Everything will come out in the wash, and as there have already been so many misleading statements, I don't care to add to the accumulation until the proper time arrives."

A Multitude of Mill End

Muslin Undergarments

MARVELOUSLY PRICED

FRESH NEW GOODS AT HALF THEIR WORTH

We recently secured from one of the leading manufacturers of women's muslin undergarments the entire made-up stock of their factory after a busy season. This included samples, discontinued lines and lots which had been made up for emergency calls to all duplicate orders. There are hundreds and hundreds of dozens in the collection, embracing every wanted garment. Some of these are what are commonly termed "seconds"—there may be an old spot, a skipped stitch or a cut place in the trimming. In no instance will the damaged place interfere with the wear of the garment. Just a stitch will restore it. The prices are remarkably low compared with the work on the garments—some are at half price and some as low as one-third their actual worth. Economical women will lay 1 na year's supply from this sale.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Sweeping Contractor Howard is accused by the Street Superintendent of willful violation of his contract; paved streets are swept, and Howard says the job isn't worth fighting for.

All efforts to effect a compromise on the Board of Public Works yesterday went for naught; the Mayor will not accept the services of civic bodies as mediators, and the Council will not consider Board No. 2.

"Bobbie" Burns was yesterday re-appointed secretary of the fire department. Some of the anomalies of the divorce law were pointed out by Judge Trask yesterday. The attempt to reform it has resulted in a statute that may work untold wrong.

The Niemeyer case was before Judge Bordwell yesterday on demurrer.

STREET SWEEPER DEFIES COUNCIL.

SAYS CONTRACT ISN'T WORTH FIGHTING FOR.

Manley Calls Attention to Unkempt Condition of Paved Thoroughfares. Legislators Hesitate to Cancel Contract—Only Gentlemen's Agreement. Is State Law Violated?

Perry Howard, street-sweeping contractor, is accused by Street Superintendent Manley of not even coming close to keeping the paved streets in the condition which his contract requires.

Complaints of dust on the streets and filth in the gutters are multiplying at the City Hall. Indignant citizens demand that some effort shall be made to lay the dust on the asphalt thoroughfares.

Howard has been charged with violating the State law in paying his street crews less than \$1 a day. These charges are now being investigated by the City Attorney. But the complaint of the Street Superintendent is that the streets are not properly swept.

For the last four weeks he has filed with the Council reports by the sweeping inspectors, showing that Howard's crews are not cleaning the streets as many times a week as is required by Howard's contract.

Twice the Council has started to investigate these reports; but neither time has the investigation proceeded further than a discussion at a Council session.

Howard has been cited to appear before the Council and show cause why his contract should not be canceled. He has ignored the Council summons. To legislators he has said that he took the contract too cheap and that the Council can cancel it any time the legislators so desire.

The Council is in a quandary; to cancel the contract will probably mean reletting at a much higher figure and the city's finances are in no condition to meet the added expense. On the other hand, citizens are insisting that they pay taxes to have the streets swept and that they are entitled to at least a measure of relief.

PUBLIC WORKS WAITS. THAT DEADLOCK UNBROKEN.

No meeting of the Council Board of Public Works was held yesterday. Petitions and protests are accumulating in the City Clerk's office, but no record can be given for the reason that all matters relating to street improvements are now held to be under the jurisdiction of the Department of Public Works. And this department exists at the present time only in the charter.

Warned that the city's interests are suffering in the Owens Valley and that street improvements under present conditions is impossible, the Mayor and the Council showed no disposition to act together.

For the first time this week no Council session was held to pass on the Mayor's latest proposal. It is scheduled for today. Robinson, Perkins and Del Valle will remain "under consideration" until Monday.

Mayor McAllen yesterday had apparently lost interest in his reply to the Council's suggestion to leave the appointment of the Board of Public Works to the city's voters. He said he was not interested in the matter, but he said he would not place the matter before the voters until he had secured the support of the Council.

BURNS SECRETARY. BACK IN OLD PLACE.

"Bobbie" Burns, former secretary of the fire department, was yesterday re-appointed to his old place by the Fire Commission. Over this appointment the Fire Board and the Civil Service Commission have been bickering for a year, but yesterday the bickering was without a word of comment, every commissioner voting "aye."

This sudden change in heart on the part of the Fire Board does not look good to some of Burns' friends. They say in indications of trouble for "Bobbie." Under the charter the Civil Service Commission is to be the body to accept the name sent by the Civil Service Commission for a position at least the place vacant in the Civil Service submitted only Burns' name.

But the charter provides that each civil service appointee must serve for six months on probation. During that time he can be removed by the appointing power and the Civil Service has not jurisdiction to inquire into the business of the removal. The Fire Board can dismiss Burns next Friday and he can secure no redress from the Civil Service.

AT THE COURTHOUSE. OPPRESSION OF DIVORCE LAWS.

TANGLES THAT PUT COURTS AND LAWYERS AT SEA.

Judge Trask Points Out Some of the Difficulties That Hedge About Compliance With the Provisions of the Act—Failure to Enter Final Decree Proves a Menace.

A case has come up in Judge Trask's court which illustrates the contradictions of the divorce law, and the court yesterday took the opportunity to dilate upon it for some length.

Over a year ago J. J. John was granted an interlocutory decree of divorce and in due course it became final. Then the wife came into court asking that the decree be set aside, as at the time she made default she was suffering from spinal meningitis. Property interests were involved and the home place was granted to the husband.

Judge Trask said he might be able to reopen the case as to the interests, but otherwise the case stands closed.

Judge Trask spoke somewhat as follows on the matter:

"The interest in property rights is whether, where property rights are involved, there must be two separate trials; or whether one trial is sufficient, and the questions of divorce and property rights can all be determined in one trial by the interlocutory decree. The attorney for Mrs. John contends that all that can be determined by the interlocutory decree is whether or not a divorce ought to be granted, and if the divorce is granted, and a decree made accordingly, the property rights of parties cannot be adjudicated until a year afterwards. If this contention be correct there can be two appeals to the Supreme Court after the interlocutory decree is granted.

"An appeal therefrom can be taken at any time within six months, and if an appeal be taken from one to two years might elapse before the interlocutory decree would become final. Thereafter there could be an appeal from a motion for a final decree at any time within six months, and an appeal could be taken by either party from the latter decree. Thus another period of from one to two years would elapse before the final decree would become final if it were confirmed. The litigation might become almost interminable.

"As the law now stands an interlocutory decree is granted and the parties remain husband and wife until there is a final decree. But of course neither of them can lawfully marry, and their status is very uncertain. For a much longer time their property rights remain unsettled.

"Another serious question relates to the power of courts to set aside these interlocutory decrees. Many lawyers contend that the courts have power to set these decrees aside at any time within a year on the motion of either party. If this be so, then a party may procure an interlocutory decree of divorce and then his own motion set it aside if for any reason he should so desire.

"With the wisdom of the laws this court has nothing to do; but it is the opinion of many lawyers and judges, as well as others, that the law is very unjust and oppressive.

Another cause of endless trouble is the lack of unanimity among the department of public works and the department of public works. In Judge Trask's court a book containing a record of all interlocutory decrees of divorce and the date of their expiration in each case the final decree is entered upon the court's own motion. It is in the way of safeguarding the public. For although at the expiration of a year from the date of the interlocutory decree a person is entitled to remarry, such marriage is bigamous if the final decree has been entered.

In other of the courts the clerk merely enters the date of the expiration of the final decree falls due, so that they may move to have the final decree entered. The attorneys often fail to pay attention. A court clerk has filed twenty-nine attorneys a week ago to have the final decrees entered. Not one of them has been responded to.

ASCOT THE LIMIT. AN EGYPTIAN TROUBLE.

J. Sasso, Aboumarwan was born and reared almost in the shadow of the Sphinx; and when news of the craze agitating the western world for exhibitions at which dancing derelicts and the streets of Cairo were prominent features reached him he determined to come to America. En route, however, Sasso Aboumarwan visited England and reached at Manchester, where he appeared before his eyes the hours of Haroun Al Raschid. They married, and as he started to court yesterday, he had been married once only—and that has been ever since.

J. Sasso Aboumarwan was "boss" of the Streets of Cairo in the Pan-American at Buffalo. He made a hurried trip to New York to bring back a few more oddities for his "show." He and his wife took advantage of his absence to lift \$500, which she lost at the Casino. In applying for a divorce yesterday the husband told Judge York that she didn't only drink liquor—she "swilled" it—travels, and she was a "wild" woman, whiskey or gin were all alike to her.

At the St. Louis Exposition Mrs. Sasso threatened to put her husband's business if he wouldn't turn her back to Manchester. Failing to give him the promise she tried to kill him and used an ornamental dagger in order to tickle him under the ribs.

From St. Louis Sasso and wife came to Los Angeles and opened an oriental bazaar on Seventh street. Here she threatened her husband again. "She tell me," said Sasso, "if I don't give her money to play the horses she Ascot she break my skin. She tell me I'm Shesney sneak and her brother would have put on a pair of gloves to pull my nose."

Judge York granted the divorce.

a bar to further proceeding, and in such event Poole will be discharged. The men who loaned the \$400 bail money will be glad, however, to have their man back in Spokane, but they won't be able to do much with him. They didn't go upon his bail bond, but merely loaned him personally \$400 to make up the required \$1500. They can only sue by civil process to recover.

NIEMEYER CASE UP. DECISION NEXT TUESDAY.

Whether Ataulf Niemeyer is to be regarded as a bona-fide saloon keeper or merely the keeper of a "blind pig" was incidentally the question argued over for the better part of the day yesterday in Judge Bordwell's court.

Niemeyer was deprived of his license at No. 327 Central avenue, by the Police Commissioners for "immoral activity" in opposing the application of John H. Bestman for a license at No. 115 Central avenue. That was his contention, and also that he was told to transfer his license to some other neighborhood by the first of the new year. He called to do that and on January 1 a license was refused to him.

A writ of mandate was sued out by Attorney Dockweiler, and later, in order to make assurance doubly sure, the action was strengthened by filing out a writ of review. Yesterday the two matters came before Judge Bordwell on a general demurrer. In view of certain remarks by the court, Assistant City Attorney Leslie Hewitt wanted to have another whack at it, so a further hearing is to be had on Tuesday morning.

HOLT ATTACKS CONTRACT WITH DEVELOPMENT COMPANY.

Stockholder Charges Conspiracy by Railroad and Harriman in Gaining Control of the Organization and Seeks in Federal Court for Rejection of the Contract.

Charges of conspiracy are made against the Southern Pacific Company and E. H. Harriman in a suit filed yesterday in the United States Circuit Court by L. M. Holt. Holt owns 170 shares of stock in the California Development Company, and has entered a bill of complaint in equity against the bill of complaint in equity against the California Development Company, the Southern Pacific Company and E. H. Harriman, praying that the court declare void a contract between the two corporations.

The complaint sets forth that the California Development Company some time in the early part of 1900 became possessed of 100,000 acres of land in Lower California, 50,000 acres in San Diego county, and the right to 50,000 miners' rights of the water in the Colorado River. Some time prior to the acquisition of the land, the California Development Company, the Southern Pacific Company and E. H. BUCK TRIED REVOLVER BEFORE THE MURDER.

Morris Buck, murderer of Mrs. Canfield, as he appeared in the Police Court yesterday.

BLINKING stupidly into vacancy, Morris Buck, who yesterday murdered Mrs. Canfield, heard the damning testimony of his own preliminary examination yesterday.

If the purpose of his slyly chicken-like stare was to give the appearance of insanity, why he started too late. Witness after witness told yesterday of his sly and ready replies at the time of his arrest.

The day of the shooting, Buck must have deliberately practiced shooting in order that his aim might not fail. While waiting for his victim with two pistols and a revolver, he ate peanuts and ice cream.

Police investigations since the murder show that Buck comes of a bad, hard race.

His sister is one of the most notorious sporting women in Arizona, and his brother was sentenced to ninety-nine years in Arizona for killing a man with a cleaver. The brother was pardoned, however.

Buck was all alone and friendless at his preliminary examination yesterday. He had no lawyer. Every way that he turned he met looks of bitterness and hatred.

In addition to the District Attorney and his deputy, Mr. Keyes, Ex-Gov. Gage was present as special representative of the Canfield family.

Like an ugly statue, Justice Chambers told Buck to stand up and come near the bench, which he did with slow, hesitating steps.

Buck's mouth moved as though he were trying to make words but the power wouldn't come; at last he hoarsely whispered something which the hallful translated as "She grabbed the gun from her breast."

He was held for trial without bail.

On the car he told Foster that he killed Mrs. Canfield because she ignored his letter in which he demanded money and sent for the hired man to put him off the place. He thought she was going to be hurt so he fired.

What did you want to be a brute for and fire the second time?" asked Foster.

Well, she struggled for the gun," Foster has known Buck before when he was coachman for the Canfields. Lizzy Billings, the Canfield's cook, retold the clear and explicit version of the shooting already told in The Times. She saw it from inside the house. From a corner of the window she says she thought she saw Buck turn the dying woman over as she lay on the porch and fire the second shot. This is emphatically denied by other witnesses.

Detective Capt. Flammer said that Buck told him she shot Mrs. Canfield because she wouldn't give him the money he wanted. He said she was coherent and clear-minded.

TERRY DODGES DIAMOND.
NOT READY FOR BASIN. (BY DIRECT WIRE TO THE TIMES.)
PITTSBURGH (Pa.) Feb. 2.—[Exclusive Dispatch.] Three minor ball leagues, embracing circuits in Pennsylvania, Ohio and West Virginia, are suspending play for the second time this season. Terry, however, has replied to these by declaring that he will not take the diamond, unless convinced that his days of usefulness in the ring are over.

CLOSED DOORS FOR CORRIGAN.
Kansas City's Derby Poolroom Out of Business.
Horseman Retaliates and Gets Himself Into Trouble.
New Zealanders' Fierce Kick.
Terry Dodges Diamond.

(BY DIRECT WIRE TO THE TIMES.)
KANSAS CITY (Mo.) Feb. 2.—[Exclusive Dispatch.] Judge McCabe, of the District Court in Kansas City, Kan., today issued a permanent injunction against the operation of the Derby poolroom, thus putting the last poolroom in the Middle West out of business.

The closing of the Derby room was brought about by Edward Corrigan and his associates. The Derby has had a monopoly of the poolroom business in Kansas City under a special annual license, issued with the tacit understanding that no other was to be granted. The Levis of Chicago, backed by Corrigan, put up \$500 last summer for a license and opened a poolroom in opposition to the Derby. Through political influence it was quickly liquidated out of business, and the \$500 not returned.

In retaliation Corrigan declared war on the Derby, instituted proceedings against it under the State Anti-Gambling Law, and today succeeded in putting it out of business. Now Tom Carey, who has made Derby of the Derby, says he will enter the racing business and try to "do" Corrigan.

LANDERS GOING TO INDIANA. (BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Feb. 2.—[Exclusive Dispatch.] Fred Landers will leave for Indianapolis Sunday morning, to box George Meme at that place. Landers received a telegram yesterday from Meme, who had accepted the match. The match is slated for February 12, but Landers will ask for a delay of a few days where he gets there, in order to have a little longer time in which to become acclimated.

NEW ZEALANDERS SCORE.
FIERCE KICKS—MAORI YELLS. (BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Feb. 2.—[Exclusive Dispatch.] New Zealand's crack football team, which finished the best players in Great Britain during the last four months, gave the lovers of the game a chance to see their wonderful work in exhibition Rugby games against a team representing all New York at Washington Park, Brooklyn, yesterday.

The full complement of fifteen players to represent New York could not be procured, and four of the New Zealanders went in to fill up the gap. The New Yorkers were completely outplayed. The second half was a rout. The ball and brilliant tackling on the part of the visitors were greatly to their credit. The score at the close of the first half was New Zealand, 25; New York, 0.

Shortly after the second half began, Abbott of the New Zealand team, but playing with New York, scored the first touchdown for the locals. He also kicked a four-point field goal. The score at the close of the second half was New Zealand, 48; New York, 12.

Bloody noses and cut lips were plentiful, but no serious injuries occurred. The New Zealanders were the victors of the play, accompanied by a wild Maori gesture, made a great sensation.

NOLAN CLINCHES FIGHT.
POSTS "BATT" NELSON'S FORFEIT. (BY DIRECT WIRE TO THE TIMES.)
BOSTON, Feb. 2.—[Exclusive Dispatch.] Manager Billy Nolan and "Battling" Nelson were highly indignant over the action of Joe Humphreys, who is doing business for Terry McGovern, when they read a dispatch which stated that he had not posted forfeit for the match with McGovern at Philadelphia, March 14. Humphreys intimated that Nelson was afraid to meet McGovern. Now, if this is true, it is a disgrace. Dan's "dander up," he has only to intimate that he's afraid to meet "Batt" and up comes the Dane's arm in a challenge. Humphreys' statement that forfeits were not posted by showing the letter from the National Athletic Club, giving the final posting date as Monday, February 4, Humphreys had wired his forfeit and accepted so as to give Nolan a call.

Humphreys tells Nelson on drawing the color line too, and says Terry won't do so. Nolan declares that Nelson was afraid to meet McGovern, and this match, he will rest for two weeks and train for the next two, so will not need to take off weight.

By posting \$2000 forfeit money today, Nolan clinched the six-round battle, which will be hand sure, as McGovern is a two-time winner of the Philadelphia Stakeholder Murphy of Philadelphia, Monday. McGovern's money has been up for some days, according to the officials of the National Athletic Club.

PITTSBURGH (Pa.) Feb. 2.—[Exclusive Dispatch.] Three minor ball leagues, embracing circuits in Pennsylvania, Ohio and West Virginia, are suspending play for the second time this season. Terry, however, has replied to these by declaring that he will not take the diamond, unless convinced that his days of usefulness in the ring are over.

AR CITY (Mo.) Feb. 2.—[Ex-
Dispatch.] Judge McCabe
in the District Court in Kan-
sas City, Kan., today issued a perma-
nent injunction against the operation
of the Derby poolroom, thus putting the
last poolroom in the Middle West out
of business.

The closing of the Derby room was
brought about by Edward Corrigan
and his associates. The Derby has had
a monopoly of the poolroom business
of the two Kansas cities under a \$5000
annual license, issued with the tacit
understanding that no other was to be
granted. The lawyers of Chicago, backed
by Corrigan, put up \$5000 last summer
for a license, and opened a poolroom
in opposition to the Derby. Through
political influence it was quickly legiti-
mized out of business, and the \$5000
was returned.

In retaliation Corrigan declared war
on the Derby, instituted proceedings
against it under the State Anti-Gam-
ing Law, and the Derby was forced into
putting it out of business. Now Thomas
Curry, who has made \$500,000 out of
the Derby, says he will meet the race-
business and try to "do" Corrigan.

LANDERS GOING TO INDIANAPOLIS.
(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Feb. 2.—[Exclu-
sive Dispatch.] Fred Landers will
leave for Indianapolis, Sunday morn-
ing, to box George Menzies at that
place. Landers received a telegram
this morning offering him a match
with Menzies, which he immediately
accepted. The match is slated for Feb-
ruary 12, but Landers will ask for a
day of a few days when he gets
there, in order to have a little longer
time in which to become acclimated.

NEW ZEALANDERS SCORE.
PIERCE KICKS—MAORI YELLS.
(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Feb. 2.—[Exclusive
Dispatch.] New Zealand's crack foot-
ball team, which astonished the best
players in Great Britain during the last
four months, gave the lovers of the
game a chance to see their wonderful
work in exhibition Rugby games
against a team representing all New
York at Washington Park, Brooklyn,
yesterday.

The full complement of fifteen play-
ers to represent New York could not
be procured, and four of the New Zea-
landers went in to fill up the gap. The
few Yorkers were completely over-
whelmed. The speed and skill in pass-
ing the ball and brilliant tackling on
the part of the visitors were beyond
admiration. The score at the end of the
first half was New Zealand, 23; New
York, 0.

Shortly after the second half began,
Abbott of the New Zealand team, but
playing with New York, scored the first
try for his local side. He kicked a
goal, which gave New York five
points. The visitors then scored
several touchdowns before the game
ended. The final score was: New
Zealand, 46; New York, 13.

Bloody noses and cut lips were plen-
tiful, but no serious injuries occurred.
The New Zealanders left at the close
of the play, accompanied by a wild
Maori chorus, made a great sensation.

NOLAN CLINCHES FIGHT.
PORTS "BATT" NELSON'S FORFEIT.
(BY DIRECT WIRE TO THE TIMES.)
BOSTON, Feb. 2.—[Exclusive Dis-
patch.] Manager Billy Nolan and
"Battling" Nelson were highly indig-
nant over the action of Joe Hum-
phreys, who is doing business for
Terry McGovern, when they read a
dispatch to the effect that they had
not posted forfeits for the match
with McGovern at Philadelphia, Mar-
ch 14. Humphreys intimated that
Nelson was afraid to meet McGovern.
Now, if anyone wants to get the
Dane's "dander up," he has only to
intimate that he's afraid to meet "go-
od-and-so," and up comes the Dan's
arm in a flash. Nolan clears up Hum-
phreys' statement that forfeits were
not posted by showing the letter from
the National Athletic Club, giving the
final posting date as Monday, Feb-
ruary 6. Humphreys had wired his
forfeit and accepted so as to give No-
lan a call.

Humphreys twits Nelson on drawing
the color line, too, and says Terry
won't do so. Nolan declares that Nel-
son will be on hand sure, as he wants
this match. He will rest for two weeks
and train for the next two, but
stands today at his room, so will not
need to take off weight.

By posting \$2000 forfeit money today,
Nolan clinched the six-round battle,
which will now surely take place at
Philadelphia, March 14. The money
posted is to go for weight and appear-
ance. The \$2000 will be forwarded to
Stakeholder Murphy of Philadelphia
Monday. McGovern's money has been
up for some days, according to the
officials of the National Athletic Club.

TERRY DODGES DIAMOND.
NOT READY FOR BASEBALL.

PITTSBURGH (Pa.) Feb. 2.—[Exclu-
sive Dispatch.] Three minor ball
leagues, embracing circuits in Penn-
sylvania, Ohio and West Virginia, are
after Terry McGovern for second base.
Terry, however, has replied to them
by declaring that he will not take
to the diamond, unless convinced that
his days of usefulness in the ring are

FOOTBALL WAR IS ON.
(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Feb. 2.—[Exclusive Dis-
patch.] The united faculties of the
University of Chicago would suspend
intercollegiate football for a period of
two years. In case the representatives at
the conference of colleges do not agree
to this proposition, the faculties would
adopt the recent Chicago conference
suggestions with but one amendment
and one interpretation. They would
amend Rule 1 to read that the football
season shall close the Saturday before
Thanksgiving, instead of the second
Saturday before Thanksgiving and
they would interpret Rule 3 to mean
that neither training table nor train-
ing quarters shall be maintained.

Northwestern University, by the
faculty action, accepted the recommen-
dations of the Chicago football confer-
ence. The substance of today's action
is that first the University of Chicago

faculties believe that the way to re-
form football rationally is to suspend
it for two years, and allow time for
consideration and study.

The Chicago University alumni held
a secret meeting, last night, to consider
the football situation. Representatives
of the newspapers were barred from
the hall and the session which was a
hot one, lasted until midnight. Four
important resolutions were adopted,
which will be submitted to the Univer-
sity today. The alumni decline in
favor of the 50-cent admission, for the
retention of the training table, against
limitation of games and demands that
present contracts with coaches, whether
professional or graduate, be strictly
carried out.

"FIGHTING DICK" MYLAND.
KNOCKS OUT TWO BOYS.
(BY THE ASSOCIATED PRESS.—P.M.)
DENVER, Feb. 2.—"Fighting Dick"
Myland of San Francisco, last
night in his attempt to de-
feat three 130-pound local boys
before a local club, succeeded in
knocking out two of his opponents—
Jack Haley and Kid Sullivan—in the
fifth and third rounds respectively of
scheduled five-round bouts, and failed
to dispose of "Kid" Erlenbach, 135
pound champion of Colorado in the
same number of rounds. There was an
agreement that if both boys were on
their feet at the end of the contest, no
decision was to be given.

Myland was the aggressor through-
out this bout, but Erlenbach gave a
clever exhibition of blocking and box-
ing and was fresh at the close of the
contest.

TENNIS PLAY.
COUNTRY CLUB MATCHES.
The younger members of the Los
Angeles Country Club will have a
chance today and tomorrow to show
their skill at tennis in a club tourney
which will begin this afternoon at 1
o'clock. There are about a dozen en-
tries so far and several more are ex-
pected today before play begins. The
programme today will consist of
singles and the management will try
to have the doubles tomorrow.

BASKETBALL.
TURNER GYM CONTESTS.
The indoor sports will have a double
header basketball contest this evening
at the Turner gymnasium on South
Figueroa street. The first game will
be between the five from St. Vincent
college and the team from the White
college and the second game will
be between the T.M.C.A. Rushers and the
Breakers lined up against each other.
It is said that play will begin at 7:30
o'clock.

Western Golf Conference.
CHICAGO, Feb. 2.—Secretary Rus-
sell D. Hill yesterday issued the call
for the annual meeting of the Western
Golf Association, which will be held
March 6 at the Grand Pacific Hotel,
Chicago. Officers for the year will be
elected. Resolutions made for the
events of 1906 which are to be
played under the auspices of the as-
sociation, and the constitution of the
association to the Constitution will be ac-
tioned, the principal one being the
change of the date of the annual
meeting from the first Tuesday in
March to the week of the western ama-
teur championship, the provision being
made that the meeting must be held at
or near the club where the champion-
ship is held.

Not Broad Enough for Yanger.
CHICAGO, Feb. 2.—[Exclusive Dis-
patch.] Luck seems to be against
Benny Yanger lately. He recently
was said to have been robbed of a
hard-earned decision over "Kid" Good-
man at Boston, and now he has re-
ceived a report that his battle with
"Kid" Broad at Indianapolis was de-
clared off. Yanger will meet Tommy
Merphy February 17 in a six-round
mill at Philadelphia. Broad was not
in condition to meet a boxer of Yan-
ger's caliber. The club was unable to
secure a suitable opponent. After
Yanger has clashed with Murphy he
will go to San Francisco and endeavor
to get on with the winner of the Her-
man-Hewera battle, and other crack
featherweights.

Settled With the Irish.
NEW YORK, Feb. 2.—[Exclusive

ateur Athletic Union and the Irish
American Athletic Association have
been settled, and yesterday the latter
withdrew its court proceedings against
the former, which grew out of the sus-
pension of John J. Joyce and Frank
R. Castleman, athletes. The union has
agreed to temporarily lift the suspen-

San Francisco Police Say Man Now
Here Worked a Swindle With
Picture Racket in North.
Chief of Police Dinnman of San Fran-
cisco has warned the local police to
look out for one W. J. Kahn, who is
alleged to have worked a swindling
game, the fellow's headquarters were
found at No. 637 1/2 South Broadway,
but Kahn eluded the officers who
called.

According to Chief Dinnman, Kahn
represented himself in San Francisco
as the canvasser for an alleged art stu-
dio. His proposed plan was to take a
photograph, enlarge it and frame the
enlarged picture for \$5.00. He would
ask for a deposit of \$1, giving a receipt.
The San Francisco police say he pocket-
ed the \$1 in each case, failing to de-
liver the goods.

The local police will watch Kahn's
actions carefully and nip any attempt
at a repetition of the game here.

man. The entertainment was provided
by the literature study group, and con-
sisted of guests and contests for which
valuable prizes were awarded. Several
new members were received. On Fri-
day evening a business meeting was
held in the Times restaurant, at which
the mothers of several of the members
were present. Reports of the various
study groups were read, after which
a new study group in parliamentary
law was organized. Arrangements were

SPORTS HIT BY TWO OUTSIDERS.

ALONZA AND LADY KING SHOCK
ASCOT FORM PLAYERS.

Long Shots Win Their Races With
Ridiculous Ease—Four Favorites in
Front at the Finish, but Bettors
Win Little, Owing to Strong Play
on False Alarms.

It was another fine day for good
things at Ascot yesterday and some of
the pickers made some money, although
the principal part of the losses were
due to the rush after false alarm win-
ners like the Major, Mrs. Mathews and
Red Tape. All of these beasts were
strongly played by confiding bettors,
who took the tip from the negro touts
around the ring, but the money was
thrown away, for none of them could
run as good as fifth. Alonza, at 10 to 1,
and Lady King, at the same price,
proved big surprises to many sports.
It is getting so now that the only
thing to do is to get supposed stable
information, and this is what most of
the sports are trying to play now,
since "jockey pools" and "owners
rings" are freely talked of. There
were no particular features during the
race, except the bad start of the fourth
race, Blisful and Embarrassment
practically left at the post in a five-
horse race. Starter Jake Holtman got
a few hisses and many uncomplimen-
tary remarks for the start.

Four furlongs: Alonzo, 97 (Preston),
10 to 1, won; Wapnagot, 105 (Au-

**MAMMOTH SHOE
HOUSE**
519 South Broadway

Values Worth Up to \$3. Today
They Sell for \$1.

Thousands of pairs of shoes will go
on sale today at the remarkable
price of ONE dollar a pair. Shoes
that sell as high as \$3.00 usually;
sizes to fit men, women and children.
The best of leathers for wear; styles
that are right up to snuff. NEVER
have the shoe buyers of Los Angeles
had such a great shoe feast as
today's offerings at the Mammoth
Shoe House; 519 South Broadway
will no doubt be the busiest place in
all the city. Their store opens at 8
a.m., and closes at 10:30 p.m. Any
time during these hours you want to
be there, sure. The earlier you go
the better you'll be served, possibly,
but the thousands of pairs will afford
a choice any time during the day.
This sale is the clean-up event of
the various stocks this firm have had
on sale recently. Shoes that are
worthy in every way, but our advice
would be to go to 519 South Broad-
way today and see for yourself the
greatest shoe values at one dollar a
pair you ever bought.

Take yellow Garvanza cars
north on Spring st. and
get off Avenue 24. Carriage
in waiting all day Sunday.

MUSIC AND THE STAGE.

"The Fires of St. John." Sadler's main play was presented last night by the St. John's Players at the Mason Opera-house. It is the best piece of her repertoire so far.

It was best, in that Miss O'Neill's play is marked, and her separation from crudity and melodramaticism is greater than in any play she has presented here. Also, the supporting roles, without exception were very acceptably taken by the members of her company.

"The Fires of St. John" is another study for the moralists—who will insist that it might have been written for the immoralists. It is a story of present-day German life, with its scenes laid in Eastern Prussia.

As Marie, O'Neill is certainly an embodiment of extraordinary strength, coupled with reserve and discretion. She has not exhibited before in any of her plays a more convincing and convincing force and sincerity. It convinces and commands great admiration.

Andrew Robson, as Von Harten, is admirable.

This afternoon Miss O'Neill will give her single remaining production, "Hedda Gabler." Tonight she will repeat "The Jewess."

Dvorak's "New World" symphony was the hit of yesterday's concert at the Mason Opera-house. It is doubtful if any average American audience could catch the original motives of the folk song; they are too faint, in distant, quite obscure, but the music is nevertheless sincere and strong, and the broad themes are developed in the most sympathetic manner. The Dvorak symphony, then, is one whose stuff is tender and appealing, and therefore, akin to the music-lover that he closest to the heart.

In a word, it is a symphony for the people, as the "Heroic" symphony is for the ultra-musical scholar.

It was given yesterday in an especially pleasing manner, by Director Hamilton and his men. The Largo, in its majestic cadences and quiet—most pastoral—beauty, was most artistic. In the more dramatic parts of the Largo the effects are strikingly Wagnerian, and in several instances whole phrases that seem almost replicas of Wagner's motives stirred up vague hints of reminiscence in the audience.

The soloist was Miss Estelle Catherine Heintz, and her principal number was Wagner's "Traume," a rare exotic from the few songs of a man marvelously endowed, in many respects, as a song writer. In its delicate and simplicity it was especially adapted to Miss Heintz's voice. She was heartily applauded.

A delightful innovation was an Edward MacDowell orchestral suite, from that composer's opus 42. Guit d'orchestra and an almost worthless expenditure of the symphony's precious time was the "Tela" overture, Reissiger, which opened the concert.

This afternoon, the Italian Impresario, will commence his series of performances in Chutes theater, giving 100 impersonations, with complete changes of costume. He will be assisted by an orchestra.

The Igorrotes will be put through their paces in an athletic contest this afternoon, and to the first of his kind since their arrival in this country. Their feats will be duly chronicled and an effort will be made for some new records.

The performances include, spear-throwing, hurdle race, mile run, weight-lifting contest, and a tree climbing competition.

Commencing tomorrow afternoon the Hotchkiss Theater management will present the Olympia Opera Company in "The Telephone Girl." This piece will be put on instead of "The Wanderers," which was originally announced. Lyman Wheeler, the new manager, will make his first appearance, as will the contralto, Miss Bernice Holmes.

WHITE CREEK DISTRICT.

Drilling to be begun in New Fresno County Field by Michigan Company.

White Creek is the name of a new petroleum district in Fresno county, and is attracting attention and actual drilling will be commenced this month by the Michigan Oil and Development Company backed by residents of Grand Rapids. The district lies north of Coalinga in the Los Gatos Valley where there are strong indications of the presence of an excellent light grade oil covering an area of some twenty miles extending from Oil City to San Joaquin.

For several years the chances of finding oil in this region have been discussed by operators but with the enormous production already brought in and plenty of proven land few have been slow to risk wildcat operations. With the ever growing demand, however, the prospects for the opening of this field are much improved, particularly as the need for the lightest grades now bids to increase more rapidly than ever.

IN COAST DISTRICTS.

The Logan Oil Company has erected its fifth rig in the Arroyo Grande district, and will commence drilling at once. The work on the McClure wells is going steadily down with nothing given out to the probable oil which has been struck. The Associated has just commenced dropping its drill.

The California Oil Fields, Limited, has been an extensive operator at Coalinga for several years, has entered the coast districts and will carry on operations. Mr. Graham who was in charge of work at Coalinga, is on the coast. The company is a British corporation.

GAS WELL GIVES OUT.

According to a Bakersfield paper the well of the Fearless Oil Company at McKittrick over which much was speculated and which had made good, has extended the oil belt some 100 miles, has completely flared out, and has exhausted itself and has investigated the well has proved only a water hole. It is supposed the drill simply penetrated a gas pocket.

GEN. MATHEWS ITS HEAD.

Made President of the State Bank and Trust Company, Which is Reorganized.

The long pending negotiations going on in the management of the State Bank and Trust Company came to a head yesterday, in a way altogether different from that indicated by numerous premature reports by several papers. The new board of directors, as follows: R. H. Howell, Chairman, A. W. Ryan, C. T. Crowell, E. C. Harper, H. J. Woolia, J. W. H. O'Brien, T. E. Gibson, J. W. A. O'Brien, Mathews, D. K. Edwards.

The board organized by electing John R. Mathews president; H. Woolia, heretofore president,

first vice-president; A. W. Ryan, second vice-president; and A. A. Harper, of the Harper and Reynolds Company, cashier in place of Maj. O'Brien.

In speaking of this change, the retiring president, Mr. Woolia, said: "I have had my nose to the grindstone so to speak, for years, and I need a rest. In three or four months when Gen. Mathews shall have become familiar with the business of the bank, I intend to take a rest making a trip to Europe. I still hold my interests in the bank."

Gen. Mathews said: "I am a plain business man and have no experience in the banking business. It is true. But I go into this at the request of the heavy stockholders. I shall do the best there is in me to manage the affairs of the institution in such a way as to merit the confidence of the public."

Gen. Mathews has been in Los Angeles nearly twenty-five years. He has won confidence by his upright business methods. He made a valuable member of the State Assembly and the State Senate. He gave Los Angeles a fine administration as postmaster for four years, and he also administered the affairs of the national guard well as Grigsby, General under the governorships of James H. Budd. He has since its founding of the bank as well as Grigsby, General under the governorships of James H. Budd. CHILDREN'S BOUQUETS.

Little Girls and Boys of Garden Contest Have Chances to Win Prizes Today.

"Make pretty bouquets and you will win a fine money prize today, little girls and boys of the Garden Contest." At the close of the Garden Contest last year, Dr. W. A. Lamb delighted the small folk, who had worked so faithfully with their several gardens, by offering to give a bouquet contest for them. This contest is to be held today from 9 until 12 o'clock in the Mayor's office.

The children who are to be admitted to the contest, including children of the East Ninth street district, the Utah-street school, Bethlehem Mission and College Settlements.

Any of these children bringing carefully-made bouquets are eligible in the contest, and many bright-faced tots will doubtless present themselves at the Mayor's office, when that worthy gentleman presents himself at the office.

Mrs. H. C. Terrell, Mrs. Wernick and Miss E. Augusta Lamb, have the affair in charge, and there will be judges who will decide the winners.

The prizes consist of a first one of \$2, second of \$2 and third of \$1.

ARIZONA TOWN SHAKEN.

Explosion of Dynamite Smashes Windows and Wrecks a House.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

LAGUNA DAM (ARIZ.) Feb. 1.—A quantity of dynamite and black powder stored near an old adobe eighty feet east of derrick No. 1, exploded with terrific force yesterday afternoon and shattered all of the windows in the vicinity. The office of the contractor in charge of the construction work was much shaken and several of the clerks received slight injuries.

A tenthouse near the scene of the explosion was wrecked and its sole occupant, Mrs. Bigler, was thrown about ten feet. The woman received a severe shock, but her injuries are not considered serious.

The black powder was the first to ignite, and gave people in the vicinity warning, enabling them to get away before the explosion of the dynamite. Had it not been for this fact there must have been a heavy loss of life as a number of men were at work in the immediate neighborhood.

The cause of the explosion is unknown, but it is thought that a spark from a passing locomotive must have ignited the powder in which the powder was stored and set it on fire.

BULGIN GOES HOME.

E. J. Bulgin, the Evangelist injured in Thursday night's wreck on the Salt Lake was taken to his home in Long Beach yesterday. Though badly hurt, it is expected he will recover. He was much improved yesterday and the trip home produced no apparent injury.

Coulter Dry Goods Company

It is not enough that this shall be merely a "good" store. It must be the BEST—in merchandise, in service-giving, in broad liberality of dealing, in low prices and in the guarantee of satisfaction, which is a part of every purchase. The news we give below is indicative of the unusual values that prevail throughout the store. Every item is worth your careful reading.

Very Special Prices on Long Kid Gloves

A few days' sale of 12 and 16-button suede gloves, the wearing of which is most fashionable now, and the very sorts many stores are selling at higher, instead of lowered prices.

12-button black suede gloves, of \$2.50 grade, for \$1.50. Broken sizes.

12-button mode or tan suede gloves, sizes 5 1/4 and 5 1/2 only: \$2.50 grade for \$2.

16-button black suede gloves, of \$3 grade, for \$2.

And we've ALL shades present in full lines of long suede or glace gloves.

New Gold Belts

These are far and away the best styles in belts to be shown this spring: it's essentially a "gold" season; everywhere you'll see touches of it, and silver, on collars, in ruffles, etc. These belts we speak of today are of gold embroidered in silver or gold and colors; of silver done in gold or silver, in dozens of variations, all fascinatingly pretty. Buckles harmonize or contrast with the belts—\$2 and \$2.50 each.

Gold and silver belting by the yard—if you prefer to make your own belts; 3, 4 and 5 inches wide, or even narrower, in close or open weaves; some unusually handsome ones in moire and ombre shadings—75c to \$3 a yard.

Nottingham Curtain Sale

Some Nottingham lace curtains, white Arabian and ecru, and in a variety of the season's most attractive designs, are now decisively reduced to clear them out. Widths anywhere from 36 to 60 inches; lengths three to three and a half yards. It's a rare chance for housekeepers with a number of windows to fill with new curtains, to save money.

\$2 curtains, now \$1.25.
75c curtains, now 50c.

\$2.50 and \$3 curtains, now \$1.95.
\$1.25 curtains, now 85c.

50c curtains, now 35c.

Odd pairs of Brussels, Nottingham, madras and similar curtains reduced an even half, together with a number of tapestry portieres.

Our own make of window shades reduced from 35c to 25c.

A small lot of silk drapery fringes, actually worth 10c to 50c, now selling for 5c. That's our way of moving them quickly.

Next Week

News of just-received cotton draperies, Royaline crepes, French muslins and satines, silks, shawls, Japanese crepes, Hungarian cloths, damas, etc.

Men's Goods

Every Saturday hundreds of men visit Coulter's furnishing goods counters to supply their needs from the best selected stocks in town. But our best customers for men's goods are women—so many men detest shopping, and prefer to let their wives select for them.

The new coat shape shirts are ready whenever you are—such splendid makes as:

The Glasgow, made by Earl & Wilson, from the highest obtainable grade of imported madras; pleated fronts, attached cuffs, two-fifty.

The Prince Albert coat shape shirt; made of all pure linen, with a tiny black stripe; pleated fronts, cuffs attached; a very swell style, three dollars.

Earl & Wilson's full dress coat shape shirt; with attached cuffs, two-fifty.

Modest wing collars, Earl & Wilson's very latest. Take a look at them.

Suit Reductions

In order to sell these suits immediately, we've marked every one at a price which stamps it a bargain. We will not carry over one garment, and have not considered maker's cost or profit in the final clearing sale. All are garments attractive independently of price, and doubly desirable for the unparalleled values they offer, for bear in mind that they are not "sale" suits, but end-of-the-season lots from our own regular stocks.

Garments Worth \$10 to \$13.50
Now Five Dollars

Walking suits of tan, blue or black cheviot, with short jackets; a few long ones.

Garments Worth \$25 to \$40
Now Ten Dollars

Stylish Scotch and English mixtures; plaids and small checks; light and medium colors; Eton jackets and three-quarter length coats.

Garments Worth \$35 to \$65
Now Twenty-Five Dollars

Costumes of silk, velvet and cloth in demi-dress and tailored styles; fashionable colors, fancy Stone and light-fitting long coats; some silk linings.

A special sale of brown, black, gray and tan walking skirts, worth up to \$6.50 for \$3.50.

THE WARD OF PROGRESS IN SAN JOAQUIN VALLEY.

Street scene in Corcoran

Grading City Park

S EVEN months ago that spot in the heart of the broad San Joaquin Valley which has made for itself a place on the map, and which is called Corcoran, was an open plain, upon which even the lonely inhabitants were few and far between. Perhaps half the land was virgin, never having been touched by the point of a plow. The rest was pierced by two railroad lines, but had nothing notable to show in the way of cultivation, settlement or development.

Corcoran is located on the main line of the Santa Fe's valley system, at the junction of a branch connecting with the Southern Pacific Railway line. About thirty trains pass daily, all of which stop at the new town.

In the short span of time intervening between the time when the land was first opened up and the time when it was first settled, there have been scores of farms, farmhouses and substantial buildings, where before reigned silence, the jack rabbit and birds of the air. Today Corcoran is a town in reality, though a very new one, and not merely a name on a map. In three to five months it has literally sprung from the earth—from the aforetime silent plain. During that time the work of clearing, leveling, grading, planting, development and other forms of achievement, as enumerated below, has made this striking transformation.

With original landed acquisitions by the company of about 20,000 acres, there have been already resold to farmers approximately 14,000 acres, in some averaging forty to eighty acres. It is estimated that there are 300 settlers now on these lands.

Over 150 houses, barns and other buildings have been erected at and around Corcoran within the past four months, at an aggregate cost of over \$250,000. About fifty of these, including four modern, two-story pressed-brick houses and several up-to-date dwelling-houses, are in the town proper.

Over twenty miles of streets are being built in the town. Thousands of the trees have been purchased for the streets and for a projected park, in which is being constructed an artificial lake, which, together with the wells and pumping plant, also forming part of the domestic water system, will cost not less than \$25,000.

Ten thousand acres, approximately, are planted or being planted, to alfalfa, wheat, barley, asparagus, corn, etc. The new town is a creditable one, with a general merchandise store, hardware, paint and oil store, a modern restaurant, blacksmith shop, plumbing shop, lumber yard and other buildings. The new town is a creditable one, with a general merchandise store, hardware, paint and oil store, a modern restaurant, blacksmith shop, plumbing shop, lumber yard and other buildings.

Bonds have been sold and the site selected for the erection of a modern, up-to-date, fully-equipped school, in the Moorish and mission style, to be completed, when completed, about \$10,000. Meantime, a public school is running in one of the new blocks.

A telephone system connects Corcoran with all points. Electric light and power systems are under contract, the materials being on the ground.

The investments made by the company, apart from its land holdings, will aggregate over half a million dollars, while the total investments of the company and its individual stockholders combined will reach a million dollars.

rows, are at work plowing lands adjacent to the town.

The Pacific Coast Oil Company has a pumping station there, located on the pipe line running from McKittrick to San Francisco Bay. Its investment in buildings, machinery, houses for employees, etc., is estimated at over a quarter of a million dollars.

But more important than the town—always more important—is the country. The tract, which covers miles of territory, has upon it more than 150 houses, barns and other buildings.

There are thirty-six artesian wells, either flowing or in process of development, and nine rigs in the field drilling additional wells, all of which promise fine results. Pumping wells to the number of fourteen are down, and several rigs are at work drilling more pumping wells. Between twenty-five and 100 domestic wells have been put down, averaging fifty to 100 feet in depth. The depth of the artesian wells runs from 80 to 120 feet, with an average depth of perhaps 120 feet.

NAB SOLICITOR ON WARRANT.

ALLEGED BOGUS MAGAZINE AGENT UNDER ARREST.

Local Officers Pick up F. W. Grace, Who is Said to Have Fleeed Thousands of Persons by Collecting Money for Periodicals That Never Were Delivered.

After fleeing thousands of residents of California out of subscriptions to various magazines and weekly periodicals, according to the claims of the authorities, F. W. Grace has been landed behind the bars of the City Jail.

He was arrested on the streets of Los Angeles last evening by Officers Boyd, Cowen and Lathrop. A charge of being a fugitive from justice has been placed against him, a warrant for his arrest having been sent here from Bakersfield.

It is probable, however, that action will be taken against the man here, as it is declared sufficient evidence is at hand to secure his conviction.

The Curtis Publishing Company of Philadelphia, publishers of the Ladies' Home Journal, have been on the trail of Grace, it is said, for over two years. His operations are declared not only to have been extensive in Southern California, but all over the West and parts of the East.

At Bakersfield, Grace is alleged to have left behind a long list of "subscribers" to the publications which he claimed to represent. Suspicion attached to the claims which he had made regarding the delivery of the periodicals, and as a result of the investigation a warrant charging him with obtaining money under false pretenses was placed in the hands of Sheriff Kelley of Kern county.

Grace was traced to Los Angeles, but it was thought he had suspended operations for a few days. This proved a wild misapprehension, however. When the man was searched, papers were found which showed his activities among Los Angeles residents. So far known, Grace has taken probably 200 subscriptions since his arrival here. Many of them come from prominent business men, as Grace was found to have worked the office buildings very systematically.

The failure to successfully prosecute the man in the past, when it is alleged, information was at hand to brand him an impostor, was due to the fact that he handled no magazines published in California. It was impossible to subpoena witnesses or procure depositions from the East, and no prosecution was made.

Later, however, Grace has been soliciting subscriptions for the Sunset magazine of San Francisco, and this evidence will be introduced at the proper time, according to the authorities.

It is impossible to estimate the amount of money which Grace has obtained in the various cities in which he has operated. It may prove to be several thousands of dollars.

Dr. W. S. Millard of Bakersfield is the complainant in the case made against Grace in that city.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Flag for School.

The ladies of the Bartlett-Logan Relief Corps presented a fine flag to the school of the Fourth-street school, which was dedicated Friday afternoon. Mrs. Greenleaf and Mrs. Ely made appropriate remarks.

Easy Money.

A burglar effected an entrance into the room occupied by E. A. Crandall and J. G. Turner at No. 449 South Spring street yesterday and made away with \$75 belonging to the former and \$40 of the latter's money.

Free Seeds.

Postmaster Flint has received from Washington a small quantity of vegetable seeds for public distribution. Beginning this morning, they will be given out at the Bureau of Information to farmers and others who can make use of them.

Loss an Arm.

John Dixon, a lumber tallyman employed by the Consolidated Lumber Company at its mill at Sixth and Alameda streets, caught his right arm in a planing machine yesterday and the member was instantly mutilated. Amputation was made at the Receiving Hospital.

Not Found Yet.

Several clues, all of which developed nothing, were followed by the persons interested in the search for Mrs. Waldo P. Chase yesterday. The woman's husband still clings to the theory that his wife is employed somewhere in Los Angeles as a governess or musical instructor.

Slugged and Robbed.

William Hinds, guest at the Arcadia Hotel, East Fifth street and Central avenue, was attacked by a man yesterday that he had been held up and robbed of \$2 by the man. Hinds, who was then taken to the Receiving Hospital, was attacked on the head, rendering him unconscious. He thinks he was attacked on First street near Central avenue.

Engineers and Architects.

The annual meeting of the Engineers and Architects Association will be held at the Hotel Bristol Wednesday evening, February 7, at 8 o'clock. Dinner will be served at 6. Randolph H. Miner will present a paper on "San Pedro Harbor, East, Present and Future." The annual election of association officers will take place at this meeting.

Near-Neighbor's Fall.

D. Mulford, aged 32, of No. 1024 South Hill street was thrown in attempting to alight from a moving street car at Fourth and Spring streets yesterday afternoon and was rendered unconscious. He was taken to the Receiving Hospital and shortly afterward was able to go home unattended. Mr. Mulford is the head of Attorney S. P. Mulford.

Too Much Headache Medicine.

Physicians at the Staters' Hospital last night announced considerable improvement in the condition of Miss Marie Newman, a young woman who has been suffering from a severe headache for several days. The girl has been suffering from an overdose of antipain, taken to relieve a headache. After taking ten grains she felt no relief, and allowed this with self-administering forty additional grains. Her condition now promises a complete recovery.

Big Postal Gain.

The postoffice comes to the front again with another index of the great tide of business flowing in and out of Los Angeles. It has been in the habit of breaking records from month to month, but January has beat them all, and scores the greatest increase in postal receipts since the office has been established. This increase is greatest in both money and percentage. During the last month the postal receipts were \$77,475.1. A year ago they were \$77,662.2. The increase is \$20,712.9, or 26.6 per cent.

Teachers' Meeting.

Superintendent Foshey announces a general teachers' meeting for today, or rather what seems to be a series of them. The following meetings will be held at the Polytechnic High School: principals' meeting at 9 a.m.; at 9:30, "Childhood," Miss Jessie Allen, "Pre-Adolescence," George L. Leitch, "Psychology of Pre-Adolescence," J. H. Moore, P. E. Owen and G. S. Bennett, at 10:15, "The Public School Teacher," Miss Jane Brownlee, "Relation of Literature to Composition," Charles Davidson, at 11 o'clock, "Our Schools," J. A. Foshey. The subject, "Transition from Childhood to Youth," will be treated by Everett Shephardson at the State Normal Auditorium, at 9:30 a.m.

Figures of January Weather.

A summary of the statistics of the Weather Bureau in Los Angeles for January shows the temperature to have reached the highest point on the 21st, when the thermometer registered 82 deg., while the coldest day was the 2d, when the mercury dropped to 34 deg. The greatest range of temperature was on the 20th, when the thermometer showed a variation of 22 deg. in the day. The mean temperature for the month was 58 deg. During the month 3.5 inches of rain fell, the same amount to the fraction of an inch as fell in the same month last year. The prevailing direction of the wind was northeast, the total movement being 3725 miles. The maximum was twenty-four miles.

Federation President Here.

Mrs. M. P. Decker of Denver, president of the General Federation of Women's Clubs, arrived in Los Angeles yesterday afternoon, and is the guest of Mrs. J. E. Cowles. Mrs. Decker will remain here until Tuesday, when she will proceed with Los Angeles club women to San José for the annual meeting of the State Federation. This morning she will be given an automobile ride through the city, and at 1 o'clock will be the guest of honor at a luncheon given by Mrs. Cowles and Mrs. E. German at Mrs. Cowles' residence. State officers of the Federation and presidents of local clubs will be present. This afternoon Mrs. Decker will be given a reception by the Cliff Dwellers' Club at Woodhurst, the home of Mrs. Frank Ogelsby Wood at Alhambra. On Monday afternoon she will be given a reception by the Los Angeles District Federation at the Ebell Clubhouse, and will give an address on club work.

BREVITIES.

The San Francisco office of the Los Angeles Times is in room 41, Chronicle building. Telephone Main 1472. Subscriptions and advertisements taken. Visitors will find copies of The Times on stand, and are welcome to call and read them.

First Congregational Church, Rev. William Horace Day will speak on "The Church and the Social Conscience." Twilight communion service at 4 p.m. No 7:30 service on Communion Sunday.

Picture framing is an art, the cheap picture can be framed to look artistic. Korber-Parker Co. 422 N. Spring. T. Wiesendanger, real estate, has moved his office to northwest corner of Seventh and Hope streets. Children's Shoe Store, 204 R. Bldg. Assaying night school, 218 E. 1st st. Pura D. Bonoff, furrier, 213 S. B'way.

CHOOSE FINE MODEL.

Business Men of Syracuse, N. Y., Propose Chamber of Commerce Like Local Organization.

The widespread fame of the Los Angeles Chamber of Commerce is indicated by the prospectus of a similar organization that the business men of Syracuse, N. Y., hope to establish. On the cover is an excellent engraving of two views of the local chamber, and the folder contains several references to the success of the undertaking. Syracuse is urged to do as well as Los Angeles.

New York had better do something. Secretary Wiggins yesterday received a letter from Suffolk county in that State, asking for particulars about Los Angeles and the chances for investment in a small way. To the letter were appended 1000 names of persons in the county worth more than \$300, every one of whom wished to know more of this section, and asked for descriptive literature. Every mail brings in large numbers of requests of this kind, but a thousand in a lump is a new thing.

C. O. C. BANQUET.

Washington's birthday and the Owens River project will be joint cause for celebration when the Chamber of Commerce puts on its glad rags and sits down to its annual joy-feast. The membership of the chamber has been increased five hundred in the past year, and congratulations will be in order. The banquet will be held on February 22, at 7 o'clock p.m., at the new Levy Cafe. From 6 to 7 o'clock the reception committee will receive the guests and members in the third-floor rooms. Tickets for the banquet are \$2.50. A plate to members only, but any member has the privilege of purchasing a ticket for a friend who may be visiting in Los Angeles.
